

ATWATER KENT RADIO

TENTATIVE SERVICE DATA

MODELS 317, 337, 435, 649, 856 AND 976

WITH METAL TUBES

MODEL 435 DIAGRAM

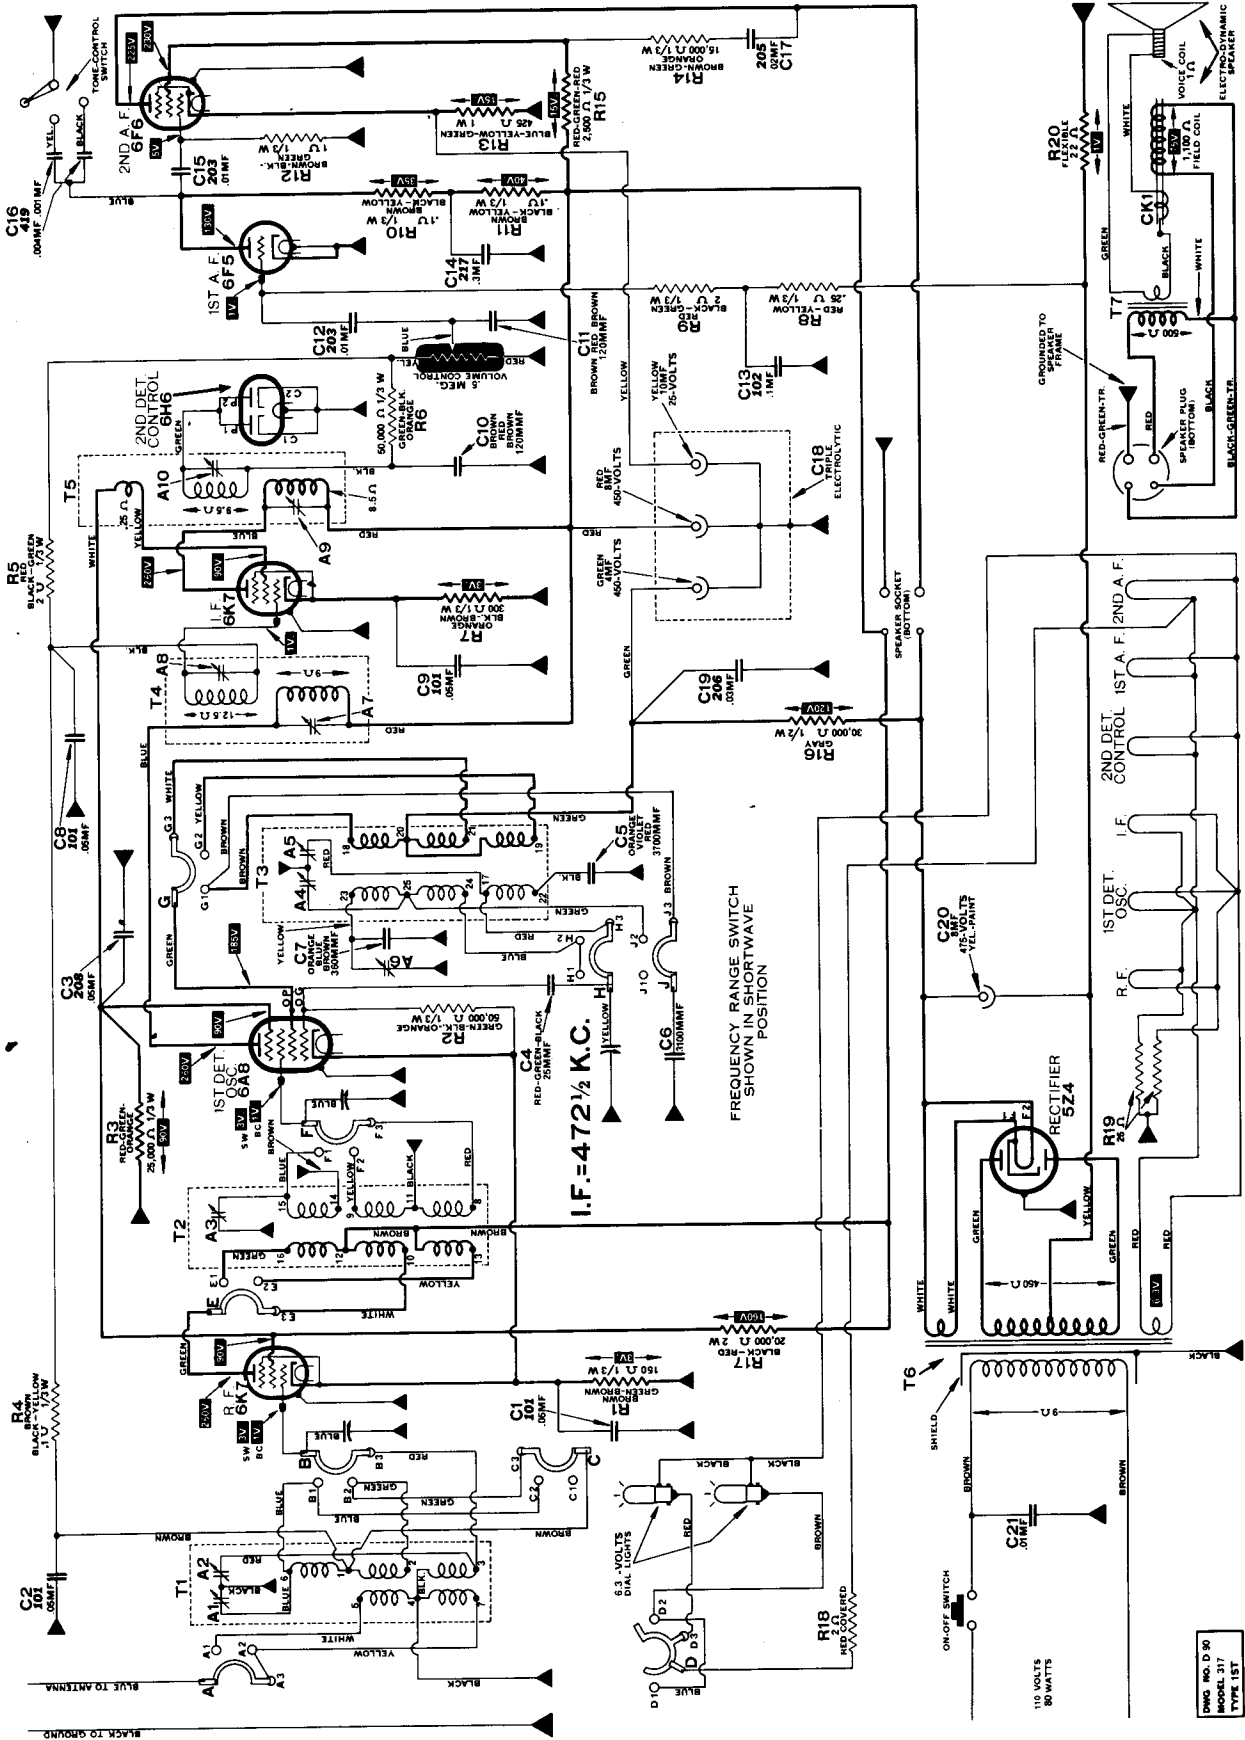

The frequency-range switch is shown in the short-wave position.

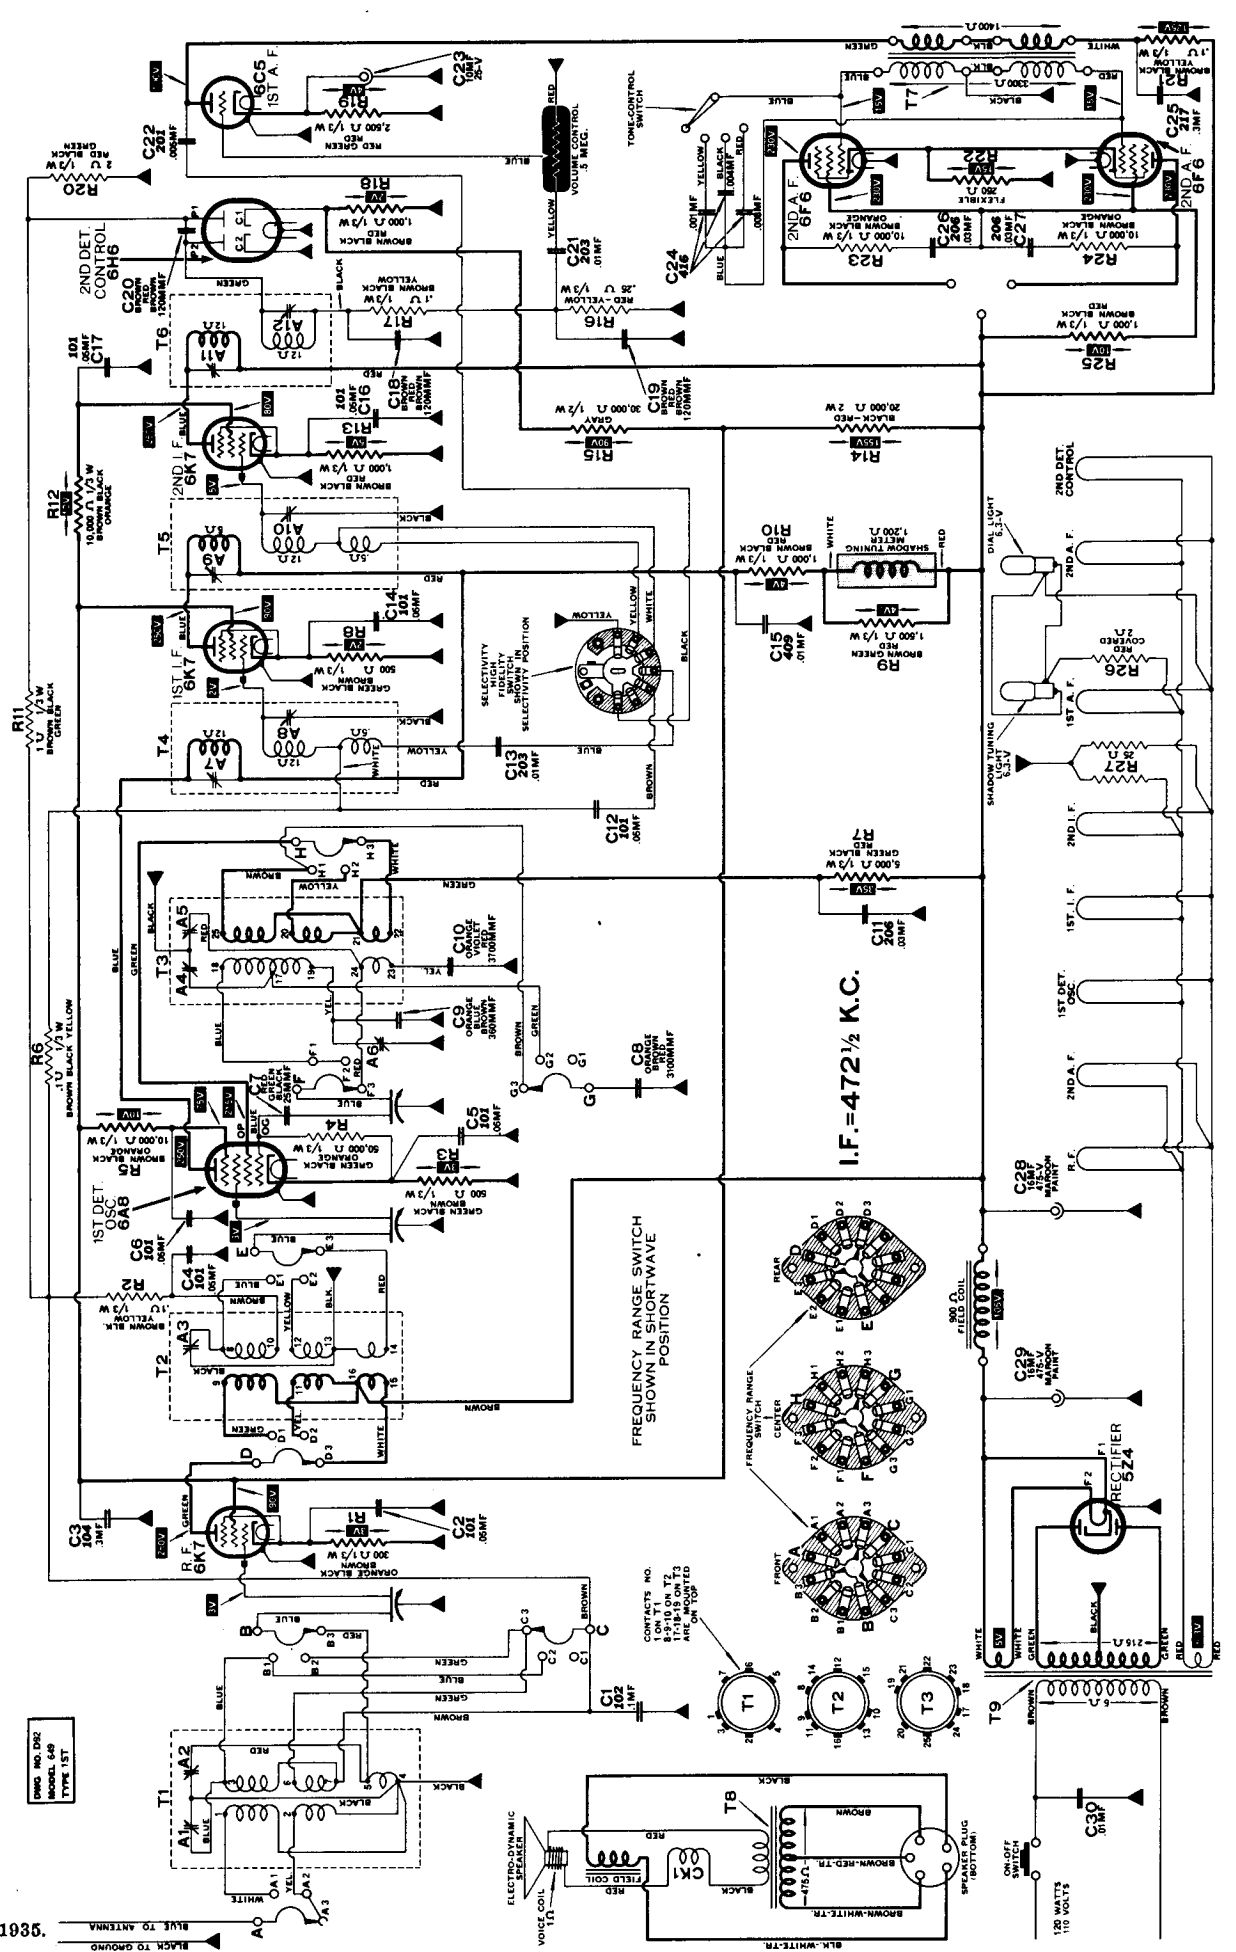

The I. F. in some Model 435 sets is 472½ KC and a label to this effect is attached to the rear of the chassis. The I. F. transformers and trimmers, etc., are exactly the same for either 450 or 472½ KC.
